Elite Bartending School offers an excellent Professional Bartending/Mixology program with first-rate training facilities and great amenities. Since bartending is a hands-on profession, it needs to be taught by hands-on professional instruction behind real working bars. Elite Bartending School will teach you what you need to know to become a professional bartender in as little as one week.

Bartending jobs vary by region, but Pennsylvania has so many liquor serving establishments that certified bartenders are in great demand. We've found that many people have changed careers to become full-time bartenders. In addition, many supplement their income with part-time bartending work. In good times and bad, people socialize in pubs, restaurants, nightclubs and in local bars. If you are ready to learn more, please make the time to visit us. We will show you our standards and how we've trained thousands of people just like you. Elite Bartending School graduates are also offered local and nationwide job placement assistance. Please call (412) 344-9100 or email us at:

Our Professional Bartending/Mixology course is designed to provide students with 40 hours of fun and comprehensive training that covers all aspects of bartending. The training is 80% hands-on behind a real bar and taught by very qualified people with many years of bartending experience. We have learned that hiring professional, dedicated people with years of experience results in better training. All of our instructors fit this description and they know how to teach people with different types of backgrounds. Please come visit and meet our instructors, get behind our bar and learn these drinks the professional way!

This allows for maximum instruction as our maximum class size is limited to twelve students.

All students should conduct themselves in a professional manner while taking the program.
